Stella Maris Catholic Primary School PE and Sport Premium Strategy

Date: 6th July 2017

Purpose of the premium

The premium must be used to fund additional and sustainable improvements to the provision of PE and sport, for the benefit of primary-aged pupils to encourage the development of healthy, active lifestyles.

The Secretary of State does not consider the following expenditure as falling within the scope of additional or sustainable improvement:

- employing coaches or specialist teachers to cover planning preparation and assessment (PPA) arrangements - these should come out of schools' core staffing budgets
- teaching the minimum requirements of the existing PE curriculum.

Overview of Stella Maris Catholic Primary School's strategies for improving pupils' PE and sport participation and attainment and giving pupils the opportunity to develop a healthy, active lifestyle

We spend our PE and sport funding in the following ways to improve PE and sport participation and to enable pupils to develop a healthy, active lifestyle:

- Employing qualified sports coaches at lunchtimes to encourage less active children to take part in sports activities in their free time
- Buying into the Shepway Sports Trust's Sports Package, enabling us to take part in inter-school sports activities and competitions
- Purchasing new equipment to support a range of different activities in PE lessons
- Subsidising additional swimming support for those pupils who struggle to meet the requirements of the National Curriculum in swimming

Our rationale for spending the money in this way is that, according to *What Works in Schools and Colleges to Increase Physical Activity?* (Public Health England), the following principles of practice rate 2 or 3 on a 5-point scale, where 5 has the strongest evidence of effectiveness, and 1 the weakest.

- Actions that affect the whole culture, ethos and environment of the school, to encourage and promote physical activity (3/5)
- Engaging families and the wider community through participating in inter-school competitions (3/5)
- Creating an active environment (3/5)
- Offering pupils a wide choice of physical activity opportunities (2/5)

How the improvements made will be sustainable in the future:

- Embedding monitoring and evaluation of the impact of the improvement
- Building up participation in inter-school competition
- 'Topping up' resources as necessary
- Further developing the outdoor environment
