

Friday 11th September 2026 – Hobbits' Newsletter

Our School Mission is what God sent us into the world to do – to help build His kingdom through learning, playing and making friends together.

The tools we will use to do this are:

Loving, Caring, Sharing, Trusting, Respect.

Our theme for reflection this week was 'trusting in God. We talked about what this looks like and means.

RE: This week we started our new RE scheme. We focussed on the story of Creation and created word clouds to show how we are made in God's image.

Maths: The children have been working hard on portioning three-digit numbers and have used manipulatives to show their understanding.

English: In English, we have been using Language Through Colour to help us write setting descriptions based on our class book.

Science: Wendy the paramedic came to visit us to talk about the human skeleton and explained how they look after people who may have a broken bone.

This week we celebrated Frank for always showing his school values and being ready to learn. We also celebrated Eddie for his independent writing and Alfie for working hard on his presentation.

Teacher message:

Our class attendance this week: 97.7%

Please read your recent email regarding our upcoming school trip to Aylesford Priory. This will give you details on the timings of the day and what the children will need to bring.

Can you please kindly send your child in with their reading record and homework book. We would love to stick their TTRS log ins into their book so that they don't get lost. Thank you for your support.
